INTRODUCTION

Worried about security while you are away? Do you want a simple, easy to install solution which helps prevent theft attempts and captures video clips in case someone attempts breaking in? Aftek SpyGuard is the right choice for you! It is a simple, easy and economical appliance and completely satisfies your requirement of a personalized security system.

With the option of mounting on the ceiling or wall, Aftek SpyGuard provides uninterrupted monitoring of your home or shop. On detecting a break-in, it sounds the hooter which would not only scare the intruder but also alert the neighbors. In addition, Aftek SpyGuard also record video clips or images which can come handy when nabbing the intruders.

Aftek SpyGuard has a unique silent alarm feature. In case of a hijack or hostage situation, you would want Aftek SpyGuard to act but without alerting the intruder. Aftek SpyGuard's silent alarm does exactly that.

It sends SMS alerts without sounding the hooter and thus avoids threat to you.

It comes with a remote which enables you to switch the system and its features ON or OFF as per your need making it your very own personalized security system.

Aftek SpyGuard can also be equipped with features like motion sensor and GSM modem for enhanced security. Motion sensor monitors human movement in its vicinity and the camera would record images of the same. Through GSM modem, you can get SMS alerts on your cell phone & control Aftek SpyGuard. You can also access video clips on internet using Aftek SpyGuard portal anywhere in the world. Aftek SpyGuard's call-me service gives you a phone call in case of emergency.
